

Half Pad Care

We recommend only washing your sheepskin pads in a safe detergent, such as Melp (<https://shop.mattes-equestrian.us/accessories/washing-liquid-melp.html>) or Woolskin Wool Wash Shampoo(<https://classicsheepskins.com/en-us/products/sheepskin-wool-wash>).

If your half pad has wool flock, only hand wash carefully as to not disturb the lay of the flock. You can remove wool felt shims and wash, but make sure they are reinserted correctly once the pad is completely dry. Lay flat, with sheepskin side up, to dry.
